

WEBINAR on

“Botanical approaches for prevention and treatment of Viral Diseases”

Organized by-

Department of Botany, Sipajhar College

On

18-05-2020 and 19-05-2020 At 4 pm

Invited speakers:

Dr. Saurov Mahanta

National Institute of Electronics &
Information Technology, Guwahati, Assam

Dr. Amal Bawri

North Eastern Institute of Folk Medicine ,
Pasighat, Arunachal Pradesh

About the programme:

Department of Botany is organizing a two day webinar on the topic “**Botanical approaches for prevention and treatment of Viral Diseases**” to get a brief insight on the different biological perspectives to understand about disease. *Disease* is any disorder of structure or function in a human, animal, or plant, especially one that produces specific symptoms. From time immortal plants have traditionally been used in treating various diseases and ailments occurring in human and other animals. With the development of science and technology potent biomolecules from plants have been isolated and are used in preparation of medicines. This webinar will give insight in traditional healing systems as well as bioinformatics approaches to understand diseases.

About the College:

One of the leading institutions of higher education in Darrang district, Sipajhar College has come a long way since its inception in 1971. Situated at an easily accessible location along the National Highway 52, the College has been able to provide a sustainable momentum to the efforts to provide quality education to the student community of the area. Starting out with just Pre-university classes in 1971, and Degree Classes in 1980, Sipajhar College, which celebrated its Silver Jubilee in 1997, has contributed significantly to the academic and cultural life of the region

About Botany Department:

The Department of Botany, Sipajhar College is one of the departments of newly introduced science stream in the year 2018.
